$$
\begin{array}{ccccc}
0 & 10 & 1 & 1 & 0 \\
1 & 7 & 2 & 2 & 1 \\
4 & 4 & 3 & 5 & 2 \\
9 & 1 & 4 & 10 & 3 \\
16 & -2 & 5 & 17 & 4 \\
25 & -5 & 6 & 26 & 5
\end{array}
\qquad
\begin{array}{ccccc}
2 & 5 & 2 & 0 & 0 \\
5 & 0 & 4 & 4 & 4 \\
2 & 1 & 3 & 3 & 3 \\
1 & 5 & 0 & 4 & 2 \\
4 & 2 & 1 & 5 & 5
\end{array}
$$

each cell on the grid contains one matrix element

$$
\begin{array}{ccccccccc}
2 & 5 & 2 & 0 & 0 & 3 & 10 & -1 & 71 \\
5 & 0 & 4 & 4 & 0 & 0 & 12 & -7 & 78 \\
2 & 1 & 3 & 0 & 3 & 7 & 15 & -3 & 88 \\
1 & 5 & 0 & 4 & 2 & 8 & 20 & -20 & 99 \\
4 & 0 & 1 & 5 & 5 & 2 & 27 & -33 & 100
\end{array}
$$

There are many more matches than what I have drawn. By matches I mean 4 consecutive elements that form arithm. progression and lie horizontally, vertically or diagonally like this or diagonally like this
